“While The Bounded World by no means abandons the fast-paced, psycho-sounding punk rock style of their previous releases, the record presents a clear evolution for a band looking to avoid cliché approaches to songwriting within the rock genre. Songs like “Heaven in Disguise,” “Behold! The Disappointment Machine,” “Spectral Streams Quenched Sad Upon the Point of Flames,” and the album’s title track widen their sonic palette by adding keys, bells, and complex vocal harmonies.” - **Ballard VOX**
